

ES4 Digital Piano

Award-winning sound technology, graded hammer action and a powerful 6-speaker sound system make the ES4 the perfect choice for discriminating musicians on the go.

KAWAI
D i g i t a l

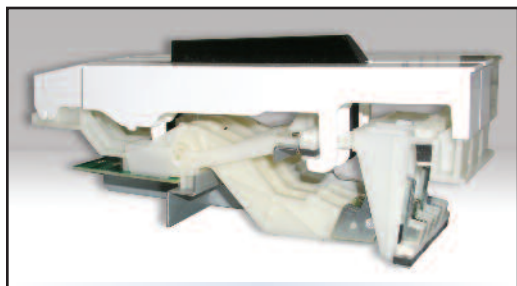

Kawai's ES4 offers tremendous capabilities in a portable, affordable and attractive package.

TO NE

The ES4 uses Kawai's critically-acclaimed Harmonic Imaging sound technology - the same technology found in our award-winning CA, CP and MP series digital pianos. You'll hear remarkable realism and expression in the piano sound. You'll be equally impressed with the other sounds of the ES4. And, any two sounds can be combined together in a DUAL or SPLIT mode..

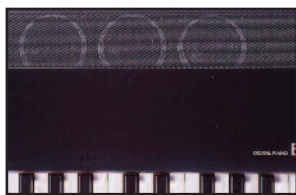

TOUCH

The AHA IV with AR Technology offers superb touch, even for discriminating players. This graded hammer action provides uncompromising feel in a surprisingly lightweight and portable keyboard action.

SOUND SYSTEM

The secret to the ES4's remarkable sound is its speaker enclosures, an innovative design in which 6 stereo speakers (3 per side) face upward from the panel for optimum sound projection. Coupled with a 26 Watt (13W x 2) amplifier, this unique speaker system delivers surprising power while creating a natural sound for the player.
