DIGITAL PIANO

DIGITAL PIANO ES6

Versatile. Powerful. Portable.

Regardless of whether you're playing a gig on stage, practicing for a piano recital at home, accompanying the local church choir, or studying Beethoven in the classroom, the ES6 is ideal. Compact and portable, this multi-purpose digital piano offers an authentic weighted keyboard action, impressively powerful speaker system, and an intelligent selection of great sounds, providing a range of musical opportunities – wherever the venue, and whatever the occasion.

POWERFUL SPEAKER SYSTEM

The ES6 features an improved 6-speaker sound system, utilising speaker box enclosures to provide deep bass and crisp treble frequencies. This unique design allows for a compact, portable instrument that is ideal for live stage performances, while standard LINE OUT jacks are also included for effortless connectivity, should additional amplification be required.

88-KEY PIANO SAMPLING

The ES6 captures the beautiful sound of KAWAI's highly acclaimed hand-crafted concert grand piano, with all 88 keys of this exceptional instrument meticulously recorded, analysed, and faithfully reproduced using proprietary Harmonic Imaging™ technology. Additional string resonance and damper effects are also applied, delivering rich tones with breathtaking realism and authenticity.

AUTHENTIC PIANO TOUCH

The redesigned Advanced Hammer Action IV-F keyboard accurately represents the touch of a traditional grand piano, grading key weight appropriately for each playing range. This inventive process allows greater stability during fortissimo passages, while preserving delicate pianissimo control, to satisfy the demands of even the most discerning pianist.

PROFESSIONAL BACKING TRACKS

The new Rhythm Section feature offers solo performers a wide selection of professionally arranged backing accompaniments at the touch of a button. With preset chord progressions and One Finger Ad-lib™ solo phrases for pop, rock, jazz-funk, and popular Latin styles, musicians can breathe new life into their repertoire, while maintaining control over each performance.

■ Specifications

Keyboard	88 weighted keys
Action	Advanced Hammer Action IV-F with Acoustic Reaction™ technology
Sound Source	Harmonic Imaging™, 88-key piano sampling
