Kawai has been busy developing sounds for the K1 line of synthesizers. The result is this extensive library of sounds for the K1. From the celestial warmth of *K1 goes LA* (E101), natural sound of *TheNewSax!* (J102), to the soundtrack ambience of *WaterDrama* (A101),

percussive punch of *Tube Snare* (A104), sound effect of *Super Jet1* (J101), to the utter silliness of *KillTheFly* (A101) and must-have patches like *Real Rhodes* (A103), you'll find a wide variety of imitative and new timbres in the Kawai K1 Sound Library.

Sound Library Cards

E101 World class sound with a European slant: CelticHarp, Akkordeon, Virginal and Kiltblower—get the picture?

J101 Trains, planes and guns! And great natural percussion.

J102 (Available January 1989) Effect city! Includes Japanese swords and seagulls, pistol, plus great OB-Brass.

Sound Cards A101, E101, J101 and J102 are available on erase-protected ROM cards. Sounds A102 through A105 are available on user-programmable RAM cards. All of these cards are available from your authorized Kawai dealer or direct from Kawai America.

Blank RAM cards are also available: order model DC-8.

Library Notes

Each of the eight sound cards in the K1 Sound Library offer a full range of sounds. However, each has its own personality and features:

A101 Programmed by the team that created the K1's original internal voices, A101 has Far and Near Eastern sounds, plus dramatic soundtrack effects.

A102 Great basses and percussive sounds highlight this card, plus some very useful comping timbres.

A103 FM colors here. Lots of useful melodic things, including the arguably the best rhodes piano.

A104 Welcome to soundtrack land! Comes complete with Warp Drive!

A105 Every sound on this card is created using only 2 sources for maximum polyphony. Great for sequencing.

Library Notes

A200 The K1-II's internal patches. Update your K1 to Kawai's best sounds, or keep a backup copy.

J103 A collection of the best sounds taken from A102, A103 and A105. Tuned percussion, alternate pianos, percussion sounds and more.

E102 Interesting yet very useful timbres. Keyboard comps, metallic spikey sounds, plus a few EFX sounds. Highly recommended.
